

EUROTECHNIK.

Technician

Join our award-winning workshop working on European vehicles. Get manufacturer training across European brands. Progress into a Senior Technician. Offering relocation and sponsorship packages

Type: Full-Time

Location: Fremantle, Western Australia

Are you a recently qualified Mechanic/Technician looking to build your career working on prestigious European cars?

- Start your career with our award-winning workshop that will support your career to become a Senior Technician between 12- 36 months
- Further your career and gain inhouse and external technical training – including qualifications in electric vehicle training
- Earn a competitive salary with quarterly bonuses incentives
- If you're interstate or looking to move to Perth? We are open to both interstate and international applications with a negotiable relocation package

Who We Are:

Euro Technik is an award-winning business, who exclusively repair and service high end European vehicles. Whilst having a fun team culture, we focus on being the best in the industry. We are passionate about going all in to deliver the best results for our customers and last year were awarded 2021 Automotive Repairer of the Year.

We currently have two high performing workshops with a third due to open next year. As the business continues to grow, we are looking for a motivated Technician, with a great attitude to join our newly renovated Fremantle workshop. You don't need to come from a background in European vehicles, our experienced team will give you all the support and manufacturer training across all European brands to develop your career.

By Joining Our team:

- We will invest in you and your career through in house and external training
- Get personal mentoring and coaching to progress your career into a Senior Technician
- You'll receive quarterly profit share bonuses and additional company incentives
- Work in a full equipped, modern workshop with the latest diagnostic equipment and access to all manufacturer information to make you a highly versatile Technician

EUROTECHNIK.

As a Technician, you:

- Have completed your apprenticeship and have a passion for European cars
- Strive to achieve the best results
- Are motivated and highly disciplined
- Can take direction and want to continuously learn and develop your skills
- Send out quality work on a consistent basis
- Are highly organised and work in a methodical way
- Are wanting a long-term career and wanting to progress as a Technician
- Enjoy being part of a team and can work well with others
